Restrictions:

1. Creative Cloud for Enterprise 4.x is restricted for use within certified and accredited networks and/or data centers having a current ATO.
2. This Certificate of Networthiness is for Creative Cloud for Enterprise 4.x and does not include applications developed with this product. Applications developed with this product must obtain a Certificate of Networthiness independently.
3. The use of compilers and other development tools on the live network will be at the discretion and approval of the Authorizing Official.

POC: netcom.hq.networthiness@mail.mil /(520)538-1199

This Certificate of Networthiness is based on a trusted standardized platform, configured per FDCC. All patches and updates will be provided by the host network administrator (NEC or DECC) in accordance with all technical directives, mandates, and IAVM. This Certificate of Networthiness is no longer valid should the assessed configuration be significantly altered. Per Army Cyber Command guidance, all operating environment will implement HBSS capabilities. Upon expiration of this Certificate of Networthiness, this application must be reassessed to ensure it is still compliant with the GNEC architecture and is still networthy. Should this software version be upgraded prior to this expiration, the new version must be evaluated for networthiness.
